

# RGT-1204

## Product Description

Finished shoes needle detector

**Feature:**

6 detector lights indicate the location of broken needles

Portable, easy to move, space saving

Different mode of the machines, shoe's company can install on the production line, improve production efficiency

**Application:**

Be applicable to detect broken needles, tacks & ferrous in sports shoes, half finished products such as vamps, sole, treads, insoles, arch support etc.

**Technical parameter:**

Inspection width	Inspection height	Inspection standard	Volume	Approx weight	Power	Voltage
400mm	120mm	Fe ≥ φ0.8mm	1320*810*1020	150kg	60W	AC220V/50HZ

## RGT-1204

	160mm	$Fe \geq \Phi 1.0\text{mm}$	1320*810*1060			
	190mm	$Fe \geq \Phi 1.2\text{mm}$	1320*810*1090			
	230mm	$Fe \geq \Phi 1.5\text{mm}$	1320*810*1130			

P.S. The inspection width and height can be customized.
