

RGT-1210

Product Description

Heavy load type metal detector

CE

Product description:

Detect objects: Must be non-metallic material, its packaging must also meet this requirement

Test purposes: Metallic impurities detected were seized items.

Industry-wide: Food, meat, chemicals, rubber, pharmaceutical and other food additives

Usage: Good and the larger and heavier (10 to 25kg) on a variety of packaged products containing the metal particles, the detection of automatic transmission.

Technical parameters:

Detection width	400mm				
Detection height	100mm	150mm	200mm	250mm	300mm
Detection sensitivity	Fe Φ 0.8mm	Fe Φ 1.0mm	Fe Φ 1.2mm	Fe Φ 1.5mm	Fe Φ 2.0mm
	SUS Φ 1.5mm	SUS Φ 2.0mm	SUS Φ 2.5mm	SUS Φ 3.0mm	SUS Φ 3.5mm
*Fe is Iron, SUS is stainless steel
