

RGT-1307

Product Description

Wire low temperature testing machine

Equipment summary

RT-1307 wire low-temperature testing machine, The specimen in a particular low-temperature environment used the rod diameter for winding to check their surface crack and split.

Applicable Industry:

Wire and cable industry

Technical parameters:

Model	
Temperature	RT~-50 temp/Degree
cooling	Air-cooled
Accuracy	±1 Degree
material	SUS#304
Inside box	60×50×60cm
Volume	148×83×850cm
Weight	About 300kg
Test number	9 pcs
