

## RGT-1605

### Enameled wire winding tester

CE

Winding speed	100+/-10r/mim
Winding cycle	0-999r or set at random
Input power	ac220v±10% 50hz
Power consumption	≤100w
Outside size	600*350*375mm(L*w*h)
Weight	35kg

#### Product description:

- Enameled wire winding test for detection of a nominal diameter of 1.600mm and less flexibility enameled round wire, thermal shock, thermal bonding, water resistant transformer oil and weight loss properties when the conductor;
- with JRB-16 test bars supporting the use of wind;
- arbitrary number of windings;
- LED display and automatically record the number of windings;
- control of single, simple, stable and reliable performance;

#### To meet the standard:

Implementation of the standards: GB / T4074.3-2008 / IEC 60851-3: 1997;  
meet GB / T6109-2008 standard requirements;

#### Applicable Industry:

It is the ideal test instrument for the magnet wire manufacturers, research, product quality supervision, inspection industries and sectors.
