

## RGT-1613

### DC Digital resistance tester fixture

#### Product description:

Fixture according to IEC 60851-5: 2005 and GB / T 4074.5-2008 standard design for detecting conductor resistance performance aids; this fixture with tightening, straightening devices. This fixture is simple structure, convenient operation, stable and reliable.

#### Technical parameter:

Description	A	B
clamp range:	$\geq$ conductor nominal diameter 0.01~15mm	0-1mm
blade width:	$1.8 \pm 0.2$ mm	$2 \pm 0.2$ mm
two clamps inside of the distance:	$1000 \pm 1$ mm	$1000 \pm 1$ mm
connected to a standard resistor and current clamp connecting wire resistance	less than 0.001 $\Omega$	
connection lead resistance potential jig and the bridge	not more than 0.01 $\Omega$	
tightening, straightening telescopic range:	0 ~ 25mm	
Dimension:	L x W x H 1372 x 120 x 200mm
